

ARLINGTON SCIENTIFIC, INC.

USA MANUFACTURER AND MARKET LEADER; GLOBAL INNOVATION LEADER

COMPANY PROFILE

Arlington Scientific, Inc. (ASI) is a leading global medical technology company that develops, manufactures and sells *in-vitro* diagnostics, medical devices, diagnostic analyzers and blood donor lounges.

ASI remains focused on enhancing the quality and speed of diagnosing infectious diseases. ASI's flagship product, the **ASI RPR Card Test for Syphilis**, is a market leader in the United States. ASI manufactures over 20 million of these RPR tests annually for over 1,000 labs. As the "Syphilis Authority", ASI has the only syphilis screening test FDA cleared for both living and cadaveric donors. ASI is also one of the very few companies that manufactures its own carbon antigen. Other user-friendly serology products include **TPHA, VDRL, ASO, SLE, MONO, CRP, RF, STAPH, SICKLE CELL** and **RUBELLA**.

ASI's innovative spirit led to the development of the world's first digital particle analyzer designed for the objective interpretation of nontreponemal RPR tests. Semi-automated and Fully-Automated syphilis analyzers integrated with ASI Serology Agglutination Interpretation Software are available or are pending FDA clearance.

ASI's blood donor lounges feature uniquely designed products that improve the safety, comfort, and ease within transfusion medicine. Current products include stationary and portable blood donor lounges, mobile coach lounges, and accessories.
